THE DINNER

Held this year at the King Edward Hotel, the annual get-together was a tremendous success. Thanks to the efforts of the committee, Tom Chipman ('47), Ian Flemming ('46) and Frank Rolph ('48) and to the publicity extraordinary, the turnout was the largest in years. In fact a definite feature was the presence of a great number of Old Boys from distant points - New York, Philadelphia, Montreal, Ottawa, North Bay and many other Ontario towns and cities.

Ham Thorburn ('26) presided, introduced the Head Table, and read several telegrams, including one from that staunchest of Andreans, Pedro Martin ('10) in Mexico. Along with the expected highlights of the

evening, the Head's address and the playing of the Dixieland aggregation on the bandstand came an unscheduled bit of drama during the draw for the door prizes. No one said much as the Head managed to draw Ham Thorburn's name for prize number one. But the Head Table continued to be paid off as Bruce Findlay walked off with the second prize! Suspense was high before Ham saved the day for the Committee by producing Ed Ballon ('42) as winner number three! The Headmaster was introduced by Tom Chipman and received a standing ovation from the over 200 present. His address covered a wide field, from the functions of education generally to the carrying on of traditions at St. Andrew's. He most definitely left the feeling with all O.B.'s that their School was under capable and inspired leadership.

THE COUNCIL

The following additions have been made to the Council for 1958-1959:

Patron, Dr. K. G. B. Ketchum; Vice-Presidents, Ron McKinnon ('46), Ted Medland ('46); Members, George Armstrong ('33), Bob Wadds ('38), Terry Malone ('51), Mike Adamson ('44), John Shearson ('58).

ROUND AND ABOUT THE SCHOOL

These days, that curious feeling of expectancy of winter causes one to look out of the window first thing each morning — just in case there IS a covering of snow — then one would KNOW that the months had fled! But they have been good months 'round and about the School. There has been enthusiastic and optimistic application on the part of all hands to the work in hand — studies, football, etc. The **First Football Team** played hard and well and, having won all their games, seemed to be heading for an outright L.B.F. championship when U.C.C. won the last game, turning the outright championship into one shared with B.R.C. The **Third Team** (Under Seventeens) in the C.O.S.S.A. League were less successful but did win three and tie one of a total of seven games. The **Under Fifteen Team** (mostly Mac House) won all their L.B.F. games and lost only two of a total of nine. Four Clan Teams played a series of intra-mural games which were spirited and keenly contested, ending up with the **Wallace Clan** on top. The **Joe W. Taylor** award for punting, for the first time was won by the School punter — the Football Captain! The new **Track** has been completed, not only providing track and field facilities second-to-none but a change of landscape that makes for considerable improvement. The site is high; there is distant perspective — an exhilarating prospect. The **Hockey** and **Basketball** Teams have been out since Half-Term and at all levels look promising. The usual repairing of boards around the Back Rinks and wire-netting behind the goals has been carried out in preparation for the first floodings. Consistently useable ice "out back" for several years now has made an action-packed area! Last week the **Debating Team** won their opening round in a debate with U.C.C. The **Upper School Play** is in rehearsal for the production of "The Winslow Boy." Some of you will remember the 1953 presentation. Practices for the **Carol Service** are well under way with **Mr. Bradley** wielding the baton. **Dr. (Ken) and Mrs. Ketchum** are well — living in their house on Old Yonge Street directly across from the School. Last information about **Dr. Macdonald** is that while he is not at all strong and is resting much, he likes to see people. In recording **Archie Hallett's** appointment to an assistant professorship at U. of T., other Old Andreans who are working in the university sphere were brought to mind — **W. A. MacIntosh**, Principal of Queen's; **Roly MacLaughlin**, Head of Engineering at U. of T., **Gilbert Robinson**, **Don Fraser**, **Fraser Grant**, **Milt Wilson** — all Profs at U. of T.; **E. S. Magill** ('22-'24) Prof at U. of Manitoba; **Victor Rodwell**, Ass't Prof at U. of California. The agricultural "green belt" that used to separate the School from the City of Toronto is rapidly disappearing.

Housing developments and shopping centres "mushroom" almost overnight. Aurora itself has expanded in all directions. The farm south of the Orchard has recently grown a subdivision — and the word is that the reason for the apple crop not being harvested in the **Aurora Orchards** is that the land has been "opt'ed" for subdivision — and THAT is right up to the S.A.C. fence line! Still — with the School's acreage — it is yet "a school in the country"! By the way — it has been decided that in future the **Review** will appear only once yearly so, the next issue it is hoped will be in the mail before the end of June next. Meanwhile your Andrean would like to be more than ever your contact with the School and with other Old Andreans. WE have the news 'round and about the School — but YOU have the news 'round and about Old Boys — so LET'S HAVE IT!
